Introduction

This document reports on our performance during July 2021.

The OHO is Queensland's health service complaints management agency. We are an independent statutory body and the one place all Queenslanders should go if they have a complaint about a health service provided to them or someone in their care, a health service provider or any aspect of a health service provided in Queensland.

The OHO's vision is 'safe, competent and ethical health services that are responsive to consumer complaints' The OHO is committed to ensuring that all decisions are well-informed, fair, impartial and timely. For transparency the OHO publishes monthly, quarterly and yearly reports about its performance.

Data in this report is correct as at 31 August 2021 but is subject to change.

Intake of complaints

Type of contacts

Type of contact	Number	Percentage
Complaint	885	77.63
Enquiry	190	16.67
Information	65	5.7
Yet to be classified	0	0
Total	1140	100.00

'Yet to be classified' includes contacts in which not enough information was provided for a determination to be reached—but further information is being sought, or matters that were not able to be finalised prior to the end of the reporting period. Contacts deemed 'yet to be classified' will be allocated as complaints or enquiries once additional information is received and registered as such in the next reporting period.

Type of complaints

Type of complaints	Number	Percentage
Health consumer complaint	763	86.21
Mandatory notification*	29	3.28
Voluntary notification*	86	9.72
Self-notification*	6	0.68
Referral from another agency	1	0.11
Total	885	100.00

*Notifications are matters defined under the Health Practitioner Regulation National Law (Queensland) and only relate to registered practitioners.

Complaint decisions

On 1 March 2020, amendments were made to the *Health Ombudsman Act 2013* (the Act) enabling the office to ‘Not accept’ a complaint in situations where the Health Ombudsman is satisfied:

- the complaint would be more appropriately dealt with by a different person or organisation; or
- the complainant has not yet sought a resolution with the relevant health service provider and it is reasonable in the circumstances for the complainant to first do so.

As a result of these changes, the table “Accepted vs Not Accepted” has been replaced with the table “Decisions made” included below.

Cases previously categorised as “Not Accepted” are now reported under the category of “Accepted and no further action taken” and relate to the number of decisions to take no further action under s 44 of the Act. This change is to definition only, and no alterations have been made to how these cases are managed by the office.

Decision timeframes—within seven days

Decision made within seven days of receiving a complaint	Number	Percentage
Yes	840	98.25
No	15	1.75
Total	855	100.00

Decisions made

Number of decisions made	Number	Percentage
Accepted and further relevant action taken	438	51.23
Accepted and no further action taken*	228	26.67
Not accepted under s35A**	189	22.10
Total	855	100.00

*These decisions relate to matters in which the Health Ombudsman has decided to take no further action under section 44 of the Act. Prior to 1 March 2020, this category was reported as “Not Accepted”.

**Matters may not be accepted under s35A of the Act where the matter would be more appropriately dealt with by an entity other than the health ombudsman or where the complainant has not yet sought a resolution with the health service provider.

An additional 17 matters were determined to fall outside the jurisdiction of the Act.

Accepted decision outcomes

Type of relevant action taken	Number	Percentage
Assessment	49	10.75
Local resolution	107	11.61
Conciliation	0	0.00
Investigation	3	6.60
Referral to Ahpra and the national boards	173	37.94
Referral to another entity	124	27.19
Referral to legal services	0	0.00
Total	456	100.00

The data in the above table includes all actions taken in matters which were identified as requiring action (noted in category 'Accepted and further relevant action taken' included the previous 'Decisions made' table). A single decision may result in more than one action being taken.

Health service complaints profile

Main issues raised in complaints

Professional Performance	418	31.62
Reports/Certificates	26	1.97
Research/teaching/assessment	0	0.00
Total	1322	100.00

These figures are based on issues recorded during the reporting period. A single complaint can contain multiple issues. Reporting on all issues identified in complaints allows comprehensive monitoring of trends, which can in turn inform a range of health complaint management system functions, such as education and information provision.

Subcategories of professional performance issues raised in complaints

Issue	Number	Percentage
Competence	5	1.20
Coordination of treatment	49	11.72
Delay in treatment	30	7.18
Diagnosis	34	8.13
Inadequate care	37	8.85

Unexpected treatment outcome or complications	62	14.83
Withdrawal of treatment	2	0.48
Wrong or inappropriate treatment	13	3.11
Total	418	100.00

Professional performance represents the largest proportion of complaint issues. Additional information on this category of issue provides greater transparency around the issues being managed by OHO. These figures are based on issues recorded during the reporting period. A single complaint can contain multiple issues. Reporting on all issues identified in complaints allows comprehensive monitoring of trends, which can in turn inform a range of health complaint management system functions, such as education and information provision.

* The figures reported in this column are a count of the number of health practitioners identified in complaints during the reporting period. A single complaint may identify more than one health practitioner and/or health service organisation. In circumstances where a health practitioner is identified in relation to multiple complaints, the health practitioner would be counted per complaint. For example, a health practitioner identified in three complaints would be counted three times in this column.

** This data is a count of the number of issues identified within the reporting period. A complaint may also identify more than one issue per health practitioner.

Assessment

Assessments started and completed

Assessments this month	Number
Assessments started	54
Assessments completed	90

Completed assessment timeframes

Of the 90 assessments finalised in June, 84 were completed within 30 days or 60 days with an approved extension, representing a finalisation rate within statutory timeframes of 93.33 per cent.

Of the 49 assessments completed within 60 days, all were approved for extension.

Assessment timeframes	Number	Percentage
Completed within 30 days	35	38.89
Completed within 60 days*	49	54.44
Completed in more than 60 days	6	6.67
Total	90	100.00

*Assessments are able to be completed within 60 days when granted an extension of 30 days as a result of legislated requirements being met.

Assessment decisions

Type of relevant action	Number	Percentage
Local resolution	0	0.00
Conciliation	7	7.37

Referred to Ahpra and the national boards	23	24.21
Referral to another entity	11	11.58
No further action	48	50.52
Total	95	100.00

Total assessment decisions will not equal the total number of assessments (in previous tables) as a single assessment can result in multiple relevant actions.

Local resolution

Local resolutions started and completed

Local resolutions this month	Number
Local resolutions started	114
Local resolutions completed	118

Completed local resolutions

Timeframes

Of the 118 local resolutions finalised in June, 99 were completed within 30 days or 60 days with an approved extension, representing a finalisation rate within statutory timeframes of 83.90 per cent.

Local resolution timeframes	Number	Percentage
Completed within 30 days	64	54.24
Completed within 60 days*	39	33.05
Completed in more than 60 days	15	12.71
Total	118	100.00

*Local resolutions are able to be completed within 60 days when granted an extension of 30 days as a result of legislated requirements being met.

Outcomes

Conciliation

Conciliations started and closed

Conciliations this month	Number
Conciliations open at the start of the month	27
Conciliations started	8
Conciliations closed	8

'Conciliations started' includes all matters—including matters where agreement to participate has or has not been reached or the decision is pending—that entered the conciliation workflow during the reporting period. Similarly, 'conciliations closed' are all matters that were closed during the reporting period, whether due to parties not agreeing to participate or the matter being closed after completing the conciliation process. Closed conciliations differ from completed conciliations below, as completed conciliations only include matters where both parties agreed to participate and the conciliation process was completed.

Agreement to participate in conciliation

Agreement to participate in conciliation	Number
Parties agreed to conciliation	2
Party/ies did not agree to conciliation	7
Decision pending at end of month	14

Once the decision is made to attempt conciliation, both parties must agree to participate in the process. If either one, or both, of the parties do not agree, the conciliation process does not commence and the matter is closed.

'Decisions pending' includes matters where parties are still deciding whether to participate in conciliation at the end of the reporting period. It also includes matters that have been referred to another relevant action, where conciliation may not commence until this relevant action has been finalised.

Completed conciliations

Timeframes

Completed conciliation timeframes	Number	Percentage
Less than 3 months	0	0.00
3–6 months	0	0.00
6–9 months	0	0.00
9–12 months	0	0.00
More than 12 months	1	100.00
Total	1	100.00

The data above relates to matters where parties initially agreed to participate in conciliation and the conciliation process was completed within the specified timeframes. 'Completed conciliations' differ from 'closed conciliations'—in the table on page 15—as they only relate to matters where parties initially agreed to participate.

Outcomes

Conciliation outcomes	Number	Percentage
Successful	0	0.00
Not successful	1	100.00
Ended by Health Ombudsman	0	0.00
Parties withdrew prior to conciliation conference*	0	0.00
Total	1	100.00

The data above relates to matters where parties agreed to participate in conciliation. After agreeing, the conciliation process was completed with the matter either being successful or not successful—or in some instances, the Health Ombudsman may end a conciliation or parties involved may withdraw from the process prior to conciliation occurring. 'Completed conciliations' differ from 'closed conciliations'—in the table on page 16—in that they only relate to matters where parties agreed to participate in conciliation.

*Improvements to the office's systems and processes have enabled the inclusion of this outcome in September 2020. Previously matters where parties initially agreed to participate in conciliation, and subsequently withdrew from the process were reported as Not successful.

Decisions for conciliations that were not successful

Type of relevant action	Number	Percentage
Local resolution	0	0.00
Investigation	0	0.00
Referral to Ahpra and the national boards	0	0.00
Referral to another entity	0	0.00

6–9 months	4	14.81
9–12 months	3	11.11
More than 12 months	6	22.22
Total	27	100.00

Matters can be referred simultaneously to conciliation and another relevant action. Conciliation may not commence until after the other relevant action has been finalised. To allow for continued transparency in the timeliness of conciliation processes, open conciliation timeframes include the time in which a matter was on hold whilst another process was finalised.

There are 11 matters on hold until the outcome of another process is finalised (e.g. the process of another agency such as Ahpra). This includes 0 matters that have been open for less than 3 months, 3 that have been open for 3–6 months, 0 that have been open for 6 – 9 months, 3 that have been open for 9–12 months, and 5 that have been open for more than 12 months.

Investigations amalgamated under s40(2)*	0
Investigations separated under s40(2)**	0

* Matters that involve similar allegations against a health service provider may be combined and dealt with together under section 40(2) of the Act.

**The office may decide to separate an investigation in cases where, as the investigation progresses, it becomes apparent that the matter is not suitable to be dealt with together under s40(2) of the Act.

Closed investigations

Timeframes

Of the 3 investigations, 66.66 per cent were closed within twelve months of commencement.

No further action	0	0.00
Conciliation	0	0.00
Total	4	100.00

Total investigation outcomes may not equal the total number of investigations completed (in previous tables) as a single investigation may result in multiple outcomes. In certain circumstances it may also be appropriate for the office to take action prior to the investigation being completed.

*Matters determined suitable for referral to the Director of Proceedings at the conclusion of an investigation are sent to the Health Ombudsman for consideration and determination on whether referral to the Director of Proceedings is appropriate.

Open investigations

Open investigations consist of two categories—active investigations and paused investigations.

Active investigations are being currently investigated by the office, while paused investigations are not able to be investigated by the office until such time as another agency—such as the Queensland Police Service or the Office of the State Coroner—concludes their own processes. Despite the office being unable to progress paused investigations, they are still considered to be open investigations.

Monitoring investigation recommendations

At the completion of certain investigations, the Health Ombudsman makes recommendations to health services for how they can improve service delivery and/or prevent the issues identified in the investigation from happening again. In these instances, the OHO puts in place a recommendation monitoring program to track the implementation of the recommendations.

Immediate action

The *Health Ombudsman Act 2013* allows for immediate action to be taken against a registered or unregistered health practitioner if the Health Ombudsman reasonably believes the practitioner poses a serious risk to the health and safety of the public, or it is otherwise in the public interest.

Show cause notices

In July, eight show cause notices were issued to:

- four unregistered practitioner's
- one paramedic
- one pharmacist
- two chinese medicine practitioners

As outlined in the Act, upon receipt of a show cause notice, a health service provider is invited to make a submission within a stated period of time. The Health Ombudsman will then consider the submission before deciding whether to take immediate action against the provider.

Immediate registration actions

			Public Interest	Serious Risk
Aged Health Care Worker	1	Prohibition	✓	✓
Massage therapist	1	Restrictions	✓	✓
Ayurvedic Practitioner	1	Restrictions		✓

Monitoring practitioner compliance

When the Health Ombudsman takes immediate action against a health practitioner, the office monitors the practitioner's compliance with the conditions of the order.

For interim prohibition orders, this means monitoring compliance with the restriction(s) on or prohibition of service. For immediate registration actions, this means monitoring compliance with condition(s) on or suspension of a practitioner's registration.

The Health Ombudsman may take immediate action against a single practitioner with both immediate registration action and an interim prohibition order. This can occur, for example, in instances where there is a risk that a registered practitioner may also practice in an unregistered capacity.

*The titles of certain registered health professions are protected under the National Law. Anyone who uses a protected title (e.g. doctor), without being registered for that profession, are classified as 'holding out'.

**In November 2018 paramedicine became a regulated profession under the National Registration and Accreditation Scheme. The practitioners listed in this table were working as paramedics prior to the regulation of the profession and are therefore listed as unregistered.

These figures are based on the number of individual unregistered practitioners being monitored by the OHO during the reporting period. As a single practitioner may be monitored in relation to more than one immediate action, these figures may not match the total number of open monitoring cases.

Consultation on matters

The office consults with Ahpra on matters that are considered to be appropriate for Ahpra to manage. For matters that we are considering referring to Ahpra under section 91 of the Act, we provide Ahpra with all necessary information in order for Ahpra to form a view as to whether they need to discuss or accept and progress the referral.

Consultation matters	Number
Matters consulted on*	233
Matters referred	213
Matters retained by the office**	5
Decision pending	38

*The number of matters consulted on may not equal the total number of matters referred, withdrawn and pending as a matter may have commenced consultation prior to the start of the reporting period.

**Under certain circumstances additional information may be received in the course of consultation resulting in the office retaining carriage of the matter and/or taking other relevant action.

Age of matters on commencement of consultation

In order to prevent duplication of work, we aim to ensure that matters are referred to Ahpra as early as possible in the complaint management process.

Due to the type of matters for which investigation or conciliation is deemed appropriate, and the more time intensive nature of these processes, these matters are usually older when consultation commences.

*Health service provider location is taken from the primary address of the provider recorded in the OHO complaints management system. Complaints can be made about health service providers from other states who have provided health services in Queensland. This could include locums travelling to Queensland from interstate or providers who previously lived in Queensland providing services but have since moved interstate—as the OHO can deal with complaints up to two years old.
