Introduction

This document reports on our performance during September 2018.

As Queensland's health service complaints agency, the Office of the Health Ombudsman (OHO) exists to protect the health and safety of the public by assessing, investigating and resolving complaints made about health services provided in Queensland.

Our vision is to be the cornerstone of a transparent, accountable and fair system for effectively and quickly dealing with complaints and other healthcare matters in Queensland. Our performance reports—which we update and publish monthly, quarterly and yearly—are a testament to this.

We are committed to ensuring that all decisions are well-informed, fair, impartial and timely.

Data in this report is correct as at 5 September 2018, but is subject to change.

Intake of complaints

Type of contacts

Type of contact	Number	Percentage
Complaint	604	62.46
Enquiry	361	37.33
Yet to be classified	2	0.21
Total	967	100.00

'Yet to be classified' includes contacts in which not enough information was provided for a determination to be reached—but further information is being sought—or matters that were not able to be finalised prior to the end of the reporting period. Contacts deemed 'yet to be classified' will be allocated as complaints or enquiries once additional information is received and registered as such in the next reporting period.

The number of complaint contacts will not equal the number of decisions made in the table below.

Type of complaints

Type of complaints	Number	Percentage
Health consumer complaint	544	90.22
Mandatory notification*	9	1.49
Voluntary notification*	1	0.17
Self-notification*	40	6.63
Referral from another agency	9	1.49
Total	603	100.00

*Notifications are matters raised by health service providers which do not otherwise meet the definition of a health consumer complaint as required under the *Health Practitioner Regulation National Law (Queensland)* (the National Law).

Complaint decisions

Decision timeframes—within seven days

Decision made within seven days of receiving a complaint	Number	Percentage
Yes	533	88.98
No	66	11.02
Total	599	100.00

Accepted vs not accepted

Number of decisions made	Number	Percentage
Accepted	393	60.93
Not accepted*	206	31.94
Decision pending**	46	7.13
Total	645	100.00

*'Not accepted' decisions relate to matters in which the Health Ombudsman has decided to take no further action under section 44 of the *Health Ombudsman Act 2013* (the Act).

**'Decision pending' relates to matters where more information is required before a decision on whether to accept or not accept can be made, or because the matter came in just before the end of the reporting period and is still being processed.

An additional 30 matters were determined to fall outside the jurisdiction of the Act.

Accepted decision outcomes

Type of relevant action	Number	Percentage
Assessment	173	41.49
Local resolution	84	20.14
Conciliation	0	0.00
Investigation	6	1.44
Referral to AHPRA and the national boards	153	36.69
Referral to another entity	0	0.24
Immediate registration action	0	0.00
Interim prohibition order	0	0.00
Total	417	100.00

Accepted decisions may result in multiple issues and/or practitioners being identified, each requiring its own action. The data in the above table includes all identified issues/practitioners requiring action that were identified in the accepted complaints (noted in the previous *Accepted vs not accepted* table).

Health service complaints profile

Professional performance	332	41.09
Reports/certificates	16	1.98
Research/teaching/assessment	4	0.50
Total	808	100.00

These figures are based on issues recorded during the reporting period. A single complaint can contain multiple issues. Reporting on all issues identified in complaints allows comprehensive monitoring of trends, which can in turn inform a range of health complaint management system functions, such as education and information provision.

Assessment

Assessments started and completed

Assessments this month	Number
Assessments started	194
Assessments completed	178

Completed assessment timeframes

Of the 178 assessments finalised in September, 176 were completed within 30 days, or 60 days with an approved extension, representing a finalisation rate within statutory timeframes of 98.88 per cent.

Of the 38 assessments completed within 60 days, 37 matters were approved for extension. One matter was completed in more than 60 days. The matter finalised outside of statutory timeframe was complex and required clinical advice from an independent clinician in order to inform the assessment decision.

Assessment timeframes	Number	Percentage
Completed within 30 days	139	78.09
Completed within 60 days*	38	21.35
Completed in more than 60 days	1	0.56
Total	178	100.00

*Assessments are able to be completed within 60 days when granted an extension of 30 days as a result of legislated requirements being met.

Assessment decisions

Type of relevant action	Number	Percentage
Local resolution	0	0.00
Conciliation	10	5.52
Investigation	4	2.21
Referral to AHPRA and the national boards	13	7.18
Referral to another entity	82	45.30
Immediate registration action*	0	0.00
Interim prohibition order*	0	0.00
No further action	72	39.78
Total	181	100.00

Total assessment decisions will not equal the total number of assessments (in previous tables) as a single assessment can result in multiple relevant actions.

The figures for the type of relevant action decided in the assessment stage may not correspond with totals for respective relevant actions (e.g. local resolution, conciliation, investigation) due to the time between a decision being made and an action being taken crossing over different reporting periods.

*Immediate action assessment decision figures may not align with the immediate action figures later in the report due to immediate action decisions being made outside of the assessment process.

Local resolution

Local resolutions started and completed

Local resolutions this month	Number
Local resolutions started	86
Local resolutions completed	98

The number of local resolutions started in the month may not directly match the number of assessment decisions to undertake local resolution due to the time between a decision being made and an action taken crossing over different reporting periods.

Completed local resolutions

Timeframes

Of the 98 local resolutions finalised in September, 98 were completed within 30 days or 60 days with an approved extension, representing a finalisation rate within statutory timeframes of 100 per cent.

Of the 12 local resolution matters completed within 60 days, all were approved for extension.

We strive to finalise all matters within legislated timeframes, however, some can take longer than others due to factors outside of our control, such as delays in receiving information and responses from individual parties.

Local resolution timeframes	Number	Percentage
Completed within 30 days	86	87.76
Completed within 60 days*	12	12.24
Completed in more than 60 days	0	0.00
Total	98	100.00

*Local resolutions are able to be completed within 60 days when granted an extension of 30 days as a result of legislated requirements being met.

Outcomes

Local resolution outcomes	Number	Percentage
Resolved	81	82.65
Not resolved	8	8.16
Complaint withdrawn*	5	5.10
Local resolution did not commence**	4	4.08
Total	98	100.00

*Complainants can choose to withdraw their complaint at any stage during local resolution.

**A local resolution may not commence where the complaint is resolved directly with the health care provider prior to the commencement of the process.

Decisions for matters that were not resolved

Total	8	100.00

Conciliation

Conciliations started and closed

Conciliations this month	Number
Conciliations open at the start of the month	36
Conciliations started	8
Conciliations closed	8

The number of conciliations started in the reporting period may not match the number of decisions to refer for conciliation noted in other areas of the report due to the time between a decision being made and an action taken crossing over different reporting periods.

'Conciliations started' includes all matters—including matters where agreement to participate has or has not been reached or the decision is pending—that entered the conciliation workflow during the reporting period following the OHO assessing them as being suitable for conciliation. Similarly, 'conciliations closed' are all matters that were closed during the reporting period, whether due to parties not agreeing to participate or the matter being closed after completing the conciliation process. Closed conciliations differ from completed conciliations below, as completed conciliations only include matters where both parties agreed to participate and the conciliation process was completed.

Agreement to participate in conciliation

Agreement to participate in conciliation	Number
Parties agreed to conciliation	3
Party/ies did not agree to conciliation	4
Decisions pending at end of month	16

Once the decision is made to attempt conciliation, both parties must agree to participate in the process. If either one, or both, of the parties do not agree, the conciliation process does not commence and the matter is closed.

'Decisions pending' includes matters where parties are still deciding whether to participate in conciliation at the end of the reporting period. It also includes matters that have been referred to another relevant action, where conciliation may not commence until this relevant action has been finalised.

Completed conciliations

Timeframes

Completed conciliation timeframes	Number	Percentage
Less than 3 months	1	25.00
3–6 months	2	50.00
6–9 months	1	25.00
9–12 months	0	0.00
More than 12 months	0	0.00
Total	4	100.00

The data above relates to matters where parties agreed to participate in conciliation and the conciliation process was completed within the specified timeframes. 'Completed conciliations' differ from 'closed conciliations'—in the table on page 15—as they only relate to matters where parties agreed to participate and the conciliation process was completed.

Outcomes

Conciliation outcomes	Number	Percentage
Successful	0	0.00
Not successful	4	100.00
Ended by Health Ombudsman	0	0.00
Total	4	100.00

The data above relates to matters where parties agreed to participate in conciliation. After agreeing, the conciliation process was completed with the matter either being successful or not successful—or in rare instances, the Health Ombudsman ending it. 'Completed conciliations' differ from 'closed conciliations'—in the table on page 15—in that they only relate to matters where parties agreed to participate and the conciliation process was completed.

Decisions for conciliations that were not successful

Type of relevant action	Number	Percentage
Local resolution	0	0.00
Investigation	0	0.00
Referral to AHPRA and the national boards	0	0.00
Referral to another entity	0	0.00
Immediate action	0	0.00
No further action	4	100.00
Total	4	100.00

Open conciliation timeframes

Open conciliation timeframes	Number	Percentage
Less than 3 months	21	56.76
3–6 months	9	24.32
6–9 months	4	10.81
9–12 months	1	2.70
More than 12 months	2	5.41
Total	37	100.00

Matters can be referred simultaneously to conciliation and another relevant action. Conciliation may not commence until after the other relevant action has been finalised.

There are 10 matters on hold until the outcome of another process is finalised (e.g. the process of another agency such as AHPRA). This includes 4 matters that have been open for less than 3 months, 2 that have been open for 3–6 months, 1 that has been open for 6–9 months, 1 that has been open for 9–12 months, and 2 that have been open for more than 12 months.

To allow for continued transparency in the timeliness of conciliation processes, open conciliation timeframes include the time in which a matter was on hold whilst another process was finalised.

Investigation

Investigations started and closed

Investigations this month	Number
Investigations open at the beginning of the month	156
Investigations started	10

The number of investigations started in the reporting period may not match the number of assessment decisions to undertake investigation due to the time between a decision being made and an action taken crossing over different reporting periods, or due to investigations being started via other processes (e.g. own-motion investigation).

*Matters that involve similar allegations against a health service provider may be combined and dealt with together under section 40(2) of the Act.

Closed investigations

In September, 58.82 percent of investigations were closed within twelve months of commencement.

Referral to conciliation	0	0.00
Total	17	100.00

*Matters determined suitable for referral to the Director of Proceedings at the conclusion of an investigation are sent to the Health Ombudsman for consideration and determination on whether referral to the Director of Proceedings is appropriate.

Open investigations

Open investigations consist of two categories—active investigations and paused investigations.

Active investigations are being currently investigated by the office, while paused investigations are not able to be investigated by the office until such time as another agency—such as the Queensland Police Service or the Coroners Court of Queensland—concludes their own processes. Despite the office being unable to progress paused investigations, they are still considered to be open investigations.

Monitoring investigation recommendations

The OHO monitors the implementation of recommendations made as an outcome of two types of investigation processes—recommendations made as a result of an OHO investigation and recommendations made as a result of a health service provider investigation.

OHO recommendations

At the completion of certain investigations, the Health Ombudsman makes recommendations to health service providers for how they can improve service delivery and/or prevent the issues identified in the investigation from happening again. In these instances, the OHO puts in place a recommendations monitoring program to track the implementation of the recommendations.

Health service provider recommendations

In addition, a health service provider may conduct its own investigation, or engage another entity to conduct an independent investigation, resulting in recommendations for improvement. The Health Ombudsman may decide to monitor the implementation of these recommendations.

Matters to be referred back to the Health Ombudsman

In September 2018, no matters were referred back to the Health Ombudsman.

Offences against the Health Ombudsman Act 2013

The *Health Ombudsman Act 2013* (the Act) specifies a number of breaches of the Act which constitute either a summary or indictable offence.

Where there is evidence of such a breach, a matter may be referred to the Executive Director, Legal Services, to commence prosecution within the courts.

No matters were referred for summary prosecution in September.

Immediate action

The Act allows for immediate action to be taken against a registered or unregistered health practitioner if the Health Ombudsman reasonably believes:

- that a practitioner's health, conduct or performance poses a serious risk to the health and safety of the public

or

- that action is in the public interest.

Show cause notices

In September, two show cause notice were issued to:

- one assistant in nursing for reasons relating to conduct
- one acupuncturist for reasons relating to conduct.

As outlined in the Act, upon receipt of a show cause notice, a health service provider is invited to make a submission within a stated period of time. The Health Ombudsman will then consider the submission before deciding whether to take immediate action against the provider.

Immediate registration actions

Practitioner type	Number	Action taken	Reasons/s for taking action		
			Health	Conduct	Performance
Enrolled nurse	1	Conditions		✓	

Immediate registration actions apply only to registered practitioners and may result in the Health Ombudsman issuing a suspension—or imposing conditions upon—a registered practitioner's registration.

Interim prohibition orders

No interim prohibition orders were issued in September.

Monitoring practitioner compliance

When the Health Ombudsman takes immediate action against a health practitioner, the office monitors the practitioner's compliance with the conditions of the order.

For interim prohibition orders, this means monitoring compliance with the restriction(s) on or prohibition of service. For immediate registration actions, this means monitoring compliance with condition(s) on or suspension of a practitioner's registration.

The Health Ombudsman may take immediate action against a single practitioner with both immediate registration action and an interim prohibition order. This can occur, for example, in instances where there is a risk that a registered practitioner may also practice in an unregistered capacity.

Social worker	1	2.50
Total	40	100.00

These figures are based on the number of individual unregistered practitioners being monitored by the OHO during the reporting period. As a single practitioner may be monitored in relation to more than one immediate action, these figures may not match the total number of open monitoring cases.

*Certain titles of registered health professions are protected under the National Law. Anyone who uses a protected title (e.g. medical practitioner), without being registered for that profession, are classified as 'holding out' as a practitioner of that profession.

Australian Health Practitioner Regulation Agency (AHPRA)

Notifications from AHPRA

In September the OHO received one new notification (under section 193 of the Act) relating to a possible serious matter.

Consultation on matters

The office consults with AHPRA on matters that are considered to be appropriate for AHPRA to manage. For matters the office is considering referring to AHPRA under section 91 of the Act, the office provides AHPRA with all necessary information in order for AHPRA to form a view as to whether they need to discuss or accept and progress the referral.

For complex cases or where a pattern of conduct may be present the office may hold case conferences with AHPRA, either in person or electronically, which can sometimes delay the consultation process. By encouraging robust conversations during this process productive and consistent decisions between the core regulatory agencies is achieved.

Consultation matters	Number
Matters consulted on*	189
Matters referred	188
Matters retained by the office**	5
Decision pending	17

*The number of matters consulted on may not equal the total number of matters referred, withdrawn and pending as a matter may have commenced consultation prior to the start of the reporting period.

**Under certain circumstances additional information may be received in the course of consultation resulting in the office retaining carriage of the matter and/or taking other relevant action.

Relevant action proposing referral

Relevant action	Number	Percentage

Local resolution	1	0.53
Internal review	1	0.53
Investigation	5	2.64
Total	189	100.00

Age of matters on commencement of consultation

In order to prevent duplication of work, the office aims to ensure that matters are referred to AHPRA as early as possible in the complaint management process.

Due to the type of matters in which investigation or conciliation is deemed appropriate, and the more time intensive nature of these processes, these matters are usually older when consultation commences.

Relevant action	0–7 days	8–14 days	15–30 days	31–60 days	More than 60 days

'Age of matters' is calculated from the date on which a matter was accepted by the office.

*Health service provider location is taken from the primary address of the provider recorded in the OHO complaints management system. Complaints can be made about health service providers from other states who have provided health services in Queensland. This could include locums travelling to Queensland from interstate or providers who previously lived in Queensland providing services but have since moved interstate—as the OHO can deal with complaints up to two years old.
